Elizabeth Losh directs the Culture, Art, and Technology Program at Sixth College at the University of California, San Diego. She is the author of *Virtualpolitik: An Electronic History of Government Media-Making in a Time of War, Scandal, Disaster, Miscommunication, and Mistakes* (MIT Press) and the coauthor of *Understanding Rhetoric: A Graphic ...* Elizabeth Losh's *The War on Learning* makes an invaluable intervention into current debates about the role of digital media in higher education by adopting an approach that is at once hopeful and skeptical, that rejects technological euphoria and moral panic alike, that challenges the promises made by corporate vendors but also those made by ... Apr 25, 2014 · Elizabeth Losh directs the Culture, Art, and Technology Program at Sixth College at the University of California, San Diego. She is the author of *Virtualpolitik: An Electronic History of Government Media-Making in a Time of War, Scandal, Disaster, Miscommunication, and Mistakes* (MIT Press) and the coauthor of *Understanding Rhetoric: A Graphic Guide to Writing*. What they learn in college -- The war on learning -- On camera: the baked professor makes his debut -- From reality tv to the research university -- The rhetoric of the open courseware movement -- Honor coding: plagiarism software and educational opportunism -- Toy problems: education as product -- The plays the thing: games and virtual worlds ... Losh analyzes recent trends in postsecondary education and the rhetoric around them, often drawing on first-person accounts. In an effort to identify educational technologies that might actually work, she looks at strategies including MOOCs (massive open online courses), the gamification of subject matter, remix pedagogy, video lectures (from ... Endorsements. Elizabeth Losh's *The War on Learning* is the rare book that avoids the Scylla and Charybdis of writing on technology and writing on education. We hear too much that technology will save us or damn us, that education is wonderful or terrible. For Losh, learning is a process, not a product—and so is technology, and so are the institutions of education. Jul 20, 2014 · *The War on Learning: Gaining Ground in the Digital University*. Elizabeth Losh. MIT Press. June 2014. Find this book: Education at all levels throughout the developed world is dominated — and, oftentimes, daunted — by the inclusion of '21st century skills' across curricula, a term typically given to ICT and productivity skills.
